INTRODUCING THE
NEW

FULL BODY
PHOTOGRAPHY SYSTEM

At last, a way to take reproducible full body, torso and lower body shots with consistent lighting and camera angles - without all of the cost.

System can be set up, moved and put away quickly.

Produces vividly detailed head-to-toe images to better sell body shaping treatments and examine cellulite and leg veins.

Small footprint does not take up lots of valuable floor space.

FACIAL STUDIO
PHOTOGRAPHY SYSTEM

With the Profect™ Studio Photography System, skin defects can be seen more clearly than ever before. And with the included Ultraviolet Digital Analysis System, you can quickly and easily show your patients the real impact of solar and actinic damage.
